

Subject: Health Insurance Plan for IYSA Members

Dear Leagues and Clubs,

Illinois Youth Soccer (IYSA) is pleased to announce that our partners at Player's Health are offering the very first National Health Plan focused specifically for sports organizations! As a member of IYSA, all staff, coaches, referees, and volunteers are now eligible for this health plan, with additional reduced rates for those who are of W2 or 1099 status. Below are the benefits of the plan:

- Consolidate membership (sports club/league employees and their dependents) that normally participate in individual group insurance plans into *one* large group (fully insured) plan.
- Large group plans provide participants with rates resulting in lower health plan costs (9-15%) savings.
- Groups are placed in tiers based on their risk level, but overall benefit from manual rating. [Watch the video here](#) for information.
- Reduce workload and management for individual sports club/league employers.

The more leagues and clubs that submit their census, the greater the impact on group pricing and affordable rates.

Please submit your census to Player's Health by September 30, 2021. Player's Health will provide you with the final rates in October followed by the enrollment process. Coverage may start as early as January 1, 2022.

We are excited that our partner Player's Health is offering an accessible and affordable healthcare plan for our member clubs, coaches, administrators and volunteers. Please know that we are grateful for what you do and that we are always looking for ways to assist you.

[Set up a meeting to learn more and submit your census now!](#)
